She is sometimes asked to participate in cooking contests or to provide a favorite recipe for a newspaper or magazine article. Over the years, she has even won a few contests. So, she decided to tape some **PA Dutch dishes** to share with her family and on her YouTube channel, "Jo Ellen's Kitchen." Follow her to see the latest recipe, often released Monday evening.

<https://www.youtube.com/user/joellenlitz> Little did she know when she started these videos that we'd end up in a Pandemic known as the Coronavirus, and later CoVid 19. People found an escape in watching homemade recipes being made, and often trying or modifying their current recipe. They were able to reminisce about a favorite dish made by their mother or grandmother, and feel good, if only for a few minutes. She also tries to tell stories about our Pennsylvania German heritage, share antique items, and promote local products like Swiss Premium Dairy, Hershey's Cocoa, or her garden vegetables. Her cooking is done on an antique Wincroft gas stove and oven. It doesn't have a thermometer. She adjusts the flames by sight for temperature. Concurrently, she's writing a book, and people asked her to include these recipes. Between the written word and videos, this is a great way to preserve and share our **PA Dutch heritage focusing on the foods prepared by our forefathers**. Kum Esse (come eat), Enjoy!
